DAY 5 — READING, VIDEOS AND SELF-CHECK

Day 5 self-study

Six short readings, six introductory videos and six self-check questions. Work through them after the Friday review, before Week 2 starts.

DAY 5 — SELF-STUDY · READING

One short reading for each Day 5 topic

Official documentation pages, about 10 to 15 minutes each. Click a title to open it.

TOPIC	PAGE	WHAT TO LOOK FOR
PROMPTS	Prompt engineering overview (Claude)	Where to start when a prompt doesn't work.
PROMPTS	Prompting best practices (Claude)	Clear instructions, examples, XML tags and format.
REASONING	Extended thinking (Claude)	Thinking budgets, and what reasoning costs.
TEMPLATES	Prompt management in Amazon Bedrock	Templates, variables, drafts and versions.
TESTING	Define success criteria and build evaluations	Write test cases before you change a prompt.
INJECTION	Detect prompt attacks with Bedrock Guardrails	What the prompt attack filter screens, and what it doesn't.

DAY 5 — SELF-STUDY · VIDEO

Introductory videos on YouTube

Short English introductions to each Day 5 topic. Click a title to open it.

TOPIC	YOUTUBE VIDEO	CHANNEL · WHY WATCH
PROMPTS	Prompting 101 | Code w/ Claude	Anthropic · building a prompt step by step.
PROMPTS	Prompt engineering best practices on Amazon Bedrock	AWS Events · AWS Summit Berlin 2024 (AIM302).
REASONING	Chain-of-thought (CoT) prompting explained	KnowHive · when step-by-step reasoning helps.
TEMPLATES	Demo: Amazon Bedrock Prompt Management	Amazon Web Services · templates and versions.
TESTING	How to evaluate an LLM application	Evidently AI · test sets and regression checks.
GUARDRAILS	New demo: Amazon Bedrock Guardrails	Amazon Web Services · filters, including prompt attacks.

SELF-STUDY · SELF-CHECK

Answer these without your notes

- Name the four parts of a prompt, and find each one in the assistant's answer prompt.
- When does step-by-step reasoning improve an answer, and what does it cost?
- In Prompt Management, how does a draft differ from a version?
- What are the two ways an application can use a prompt version?
- When can a new prompt version go into use in the assistant?
- What is indirect prompt injection, and which checks limit its effect?
